PROFIT WARNING

This announcement is made pursuant to Rule 13.09(2)(a) of the Listing Rules and the Inside Information Provisions under Part XIVA of the SFO.

After preliminary review by the Company's management based on the management accounts of the Group, the Board wishes to inform the shareholders of the Company and potential investors that the Group is expected to record a net loss for the six months ended 30 June 2015 after taking into account the Fair Value Loss related to the First Tranche Convertible Notes. Without taking into account the Fair Value Loss which is non-operating and non-cash in nature, it is expected there will be an operating profit recorded for the six months ended 30 June 2015, which represents a decrease as compared to that of the corresponding period in 2014. Such decrease was mainly because of the gain on disposal of an associate recorded during the corresponding period in 2014, which was an one-off transaction occurred during that period.

Shareholders of the Company and potential investors are advised to exercise caution when dealing in the securities of the Company.

This announcement is made by the board (the "Board") of directors of LifeTech Scientific Corporation (the "Company", together with its subsidiaries, the "Group") pursuant to Rule 13.09(2)(a) of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules") and the Inside Information Provisions (as defined under the Listing Rules) under Part XIVA of the Securities and Futures Ordinance (Cap. 571 of the Laws of Hong Kong) (the "SFO").

After preliminary review by the Company's management based on the management accounts of the Group, the Board wishes to inform the shareholders of the Company and potential investors that the Group is expected to record a net loss for the six

months ended 30 June 2015 after taking into account the fair value loss (the “Fair Value Loss”) of conversion option of the First Tranche Convertible Notes (as defined in the circular of the Company dated 6 January 2013). As the fair value of the said conversion is measured by using a binomial option pricing model which is linked to the share price of the Company, a higher share price of the Company will result in a greater Fair Value Loss. For the six months ended 30 June 2015, the expected Fair Value Loss will be approximately RMB237,500,000, which represents a decrease of approximately 0.9% as compared to the Fair Value Loss incurred in the corresponding period in 2014. Such decrease in the Fair Value Loss is caused by the slight decrease on fluctuation of share price of the Company during the six months ended 30 June 2015 as compared to that during the corresponding period of 2014.

Without taking into account the Fair Value Loss, it is expected there will be an operating profit recorded for the six months ended 30 June 2015 which represents a decrease as compared to that of the corresponding period in 2014. Such decrease was mainly because of the gain on disposal of an associate recorded during the corresponding period in 2014. Based on the fact that the Fair Value Loss is a non-operating and non-cash in nature and the disposal of an associate was an one-off transaction which occurred during the six months ended 30 June 2014, the Board is of the view that the Group’s operating and financial positions are healthy and the Board remains positive on the prospects of the Group.

The Company is in the process of finalizing the Group’s unaudited interim results for the six months ended 30 June 2015. The information contained in this announcement is only based on a preliminary assessment made by the Board with reference to the management accounts of the Group. Shareholders of the Company and potential investors are advised to refer to the details of the Group’s interim results for the six months ended 30 June 2015, which is expected to be released by the end of August 2015.

Shareholders of the Company and potential investors should exercise caution when dealing in the securities of the Company.
